

# TLS-450<sup>PLUS</sup>

## Proven Wet Stock Management

The Veeder-Root **TLS-450<sup>PLUS</sup>** automatic tank gauge provides the most comprehensive site data for advanced fuel asset management.

Combining industry leading algorithms with a proven reputation for compliance, the **TLS-450<sup>PLUS</sup>** keeps your site running and profitable.

**Proven Protection**

**Proven Precision**

**Proven Profit**

**Proven Partner**

## Proven Protection

Maintain control of your fueling operations using the automated compliance and site management solutions of the **TLS-450<sup>PLUS</sup>** to always know the status of your business.

- **Inspector ready compliance** – easy access to all federal, state, and local agency reports
- **Web-enabled remote connectivity** – monitor your site performance, receive real-time alerts, and access compliance data via web-enabled devices—anytime, anywhere
- **Data protection** – store up to 3 years of data and protect it from power outages, battery replacements or software upgrades
- **Security controls** – switched ethernet networks, customized user access, and Secure Socket Layer (SSL) web protection to keep your network safe

Remote connectivity allows users to access site data and receive alerts anytime and anywhere on any web enabled device.

## ✓ Proven Precision

Remote connectivity on the **TLS-450<sup>PLUS</sup>** allows access to accurate wet stock management and leak detection information at all times.

- **AccuChart** – reconcile tank tilt, dents and out-of-round tank conditions using advanced tank chart calibration technology and have the most precise picture of your inventory – all day, every day
- **Business Inventory Reconciliation (BIR)** – improve business decisions by combining meter transaction sales with AccuChart to better understand site variance
- **Continuous Statistical Leak Detection (CSLD)** – avoid site shutdown for compliance with the robust, 0.2 gph (0.8 lph) monthly tank leak detection
- **Enhanced performance** – significant improvement in system response time over the TLS-450 with 5x processing speed, 6x memory and 2x data storage
- **Data logger** – built in data logging enables improved data transfer for wet stock management

## ✓ Proven Partner

Veeder-Root products are the highest quality wet stock management solutions available with a long history of reliability and precision. Our products help achieve results that matter and the protection your business deserves.

## ✓ Proven Profit

Operate at peak efficiency with the **TLS-450<sup>PLUS</sup>** monitoring system, reducing inventory shortages and site downtime.

- **Remote software download** – hassle free access to software updates
- **Logistics visibility** – increase inventory management awareness to avoid runouts and haulbacks
- **Faster problem resolution** – diagnose and troubleshoot issues remotely to understand ongoing situations better and avoid unnecessary dispatch
- **Customized alarms** – preprogram alarm alerts to provide scenario-specific information to predetermined individuals

### TLS-450<sup>PLUS</sup> Part Numbers

#### Application Software

333545-001 **TLS-450<sup>PLUS</sup>** application software

#### Hardware: Includes a 3-Port Ethernet Module and a 2-Port USB Module

860091-301 **TLS-450<sup>PLUS</sup>** touch screen console with printer

860091-401 **TLS-450<sup>PLUS</sup>** touch screen console without printer

860091-001 **TLS-450<sup>PLUS</sup>** console without display, without printer

#### Interface Modules

332812-001 Universal sensor/probe interface module

332813-001 Universal input/output interface module

#### Communication Modules

332818-001 Sitefax interface module

332866-001 Single RS-232 interface module

332868-001 RS-232 dual interface module

332870-001 RS-232/RS-485 dual interface module

#### Feature Enhancement Software

332972-006 Continuous Statistical Leak Detection (CSLD)

332972-007 Ultimate Testing Line Leak Detection for DPLD

332972-008 Risk Management Line Leak Detection for DPLD

332972-009 Base Compliance Line Leak Detection for DPLD

333149-001 BIR/AccuChart **TLS-450<sup>PLUS</sup>** EDIM factory installed

333580-001 BIR/AccuChart **TLS-450<sup>PLUS</sup>** CDIM factory installed

333581-001 BIR/AccuChart **TLS-450<sup>PLUS</sup>** LVDIM factory installed

333582-001 BIR/AccuChart **TLS-450<sup>PLUS</sup>** MDIM factory installed
