

TLS4i TLS4C

Every tank tells a story

Every day, you spend valuable time checking inventory levels for ordering fuel or verifying correct delivery amounts. If you are manually sticking your tanks, you are not getting the full story.

Do not lose inventory, productivity, or customer loyalty by relying on incorrect manual monitoring.

The **TLS4i/TLS4C** automatic tank gauge systems are easy to navigate solutions that affordably streamline your wet stock management.

Proven Profit

Proven Protection

Proven Precision

Proven Partner

Proven Profit

The compact and powerful **TLS4i/TLS4C** monitoring systems are perfect solutions for inventory visibility. View, configure, and control using the Graphic User Interface (GUI), or remotely via web-enabled, to improve efficiency and save money. Standard features include:

Wet Stock Management

- Improve accuracy over manual reconciliation methods.
- Eliminate stick readout error.
- Eliminate data transcription error.
- Avoid manual reconciliation variance caused by temperature, delivery shortages, tank tilt, stick inaccuracy, and leaks.

Productivity Improvements

- **Color Touch Screen** – easy, clear navigation quickly points to crucial information which allows operators to focus on customers.
- **Custom Alarms** – preprogrammed alarm alerts provide scenario-specific information to predetermined individuals to increase efficiency.
- **Customized Home Screen and Favorites** – ease-of-use saves operator response time.

- **Faster Problem Resolution** – remote troubleshooting and diagnosis prevents unnecessary dispatch and more efficient service calls.

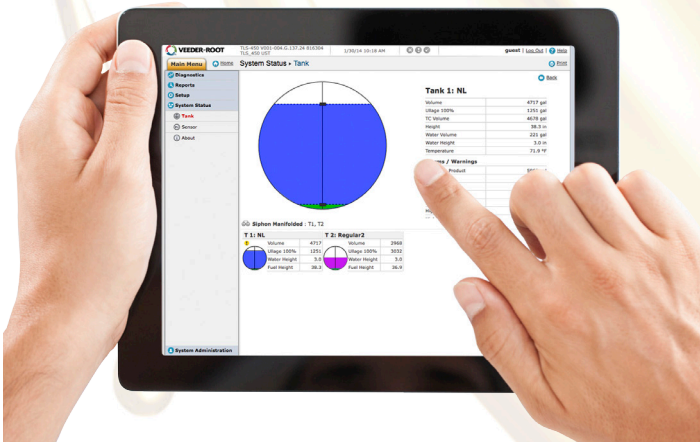

- **Customer Satisfaction** – eliminates manual tank dipping so station managers have more time to work with customers.

Proven Protection

The Veeder-Root **TLS4i/TLS4C** monitoring systems use sensors, probes and advanced software solutions to deliver accurate wet stock and forecourt information, that protects your fuel assets whether you are on-site or with your family.

- **Web-Enabled Remote Connectivity** – anytime, anywhere access via web-enabled devices to monitor site performance, providing peace-of-mind by delivering real-time alerts, compliance reports and variance analysis.

- **Data Protection** – store up to 3 years of data and protect it from power outages, battery replacements or software upgrades.
- **Reduced Risks** – eliminates manual tank dipping, reducing exposure to harmful fumes and minimizing forecourt access.
- **Customized User Access** – user-configurable login enables deployment of company specific security controls and procedures.
- **Timed Sudden Loss Detection** – monitor changes in inventory due to theft during quiet periods via programmable scheduling.

Proven Precision

The **TLS4i/TLS4C** automatic tank gauges are affordable wet stock management solutions that deliver accurate, crucial information, including:

- **Temperature Compensated Volume** – sophisticated algorithms compensate for the impact of temperature on product volume, delivering a precise inventory picture.
- **Advanced Sensor Technology** – compatible with existing Veeder-Root sensors and probes.
- **Standard Delivery Report** – provides real-time details of delivery start and end times, temperature, volume, height, and water.
- **Smart Communication** – for notifications of pre-programmed events by email or fax.
- **Inventory Level** – real-time access to inventory levels anytime, anywhere.
- **Graphical User Interface** – designed with features for ease of use including workflow wizard, context sensitive help and user-defined favorites.

TLS4i: Max 4 probes, Max 12 total inputs

Application Software:

333578-001	TLS4i application software
------------	----------------------------

Hardware:

860199-120	TLS4i console, UL/cUL with touch screen
860199-110	TLS4i console, UL/cUL without touch screen

TLS4C: Max 2 probes, Max 6 total inputs

Application Software:

333577-001	TLS4c application software
------------	----------------------------

Hardware:

860199-020	TLS4c console, UL/cUL with touch screen
860199-010	TLS4c console, UL/cUL without touch screen

Optional Software

333410-006	Continuous Statistical Leak Detection (CSLD)
333410-015	Statistical Leak Detection (SLD)
333410-018	Timed Sudden Loss Detection

Proven Partner

Founded nearly a century ago, Veeder-Root is the global leader of automatic tank gauges, backed by an unmatched service network. Around the globe, more than half a million petroleum marketers and commercial fueling businesses enjoy increased **profits** and **protection** of their **fuel assets** with Veeder-Root's solutions.

Our proven company history, combined with the highest precision levels in our wet stock management tools, delivers results that matter and the protection your business deserves.
