BUILDING THE FOUNDATION

FUELING THE FUTURE

For over 150 years Gilbarco Veeder-Root has been part of the American landscape. A brand that established an industry and is synonymous with quality and performance.

Built on cutting-edge technology and fueled by world-class engineering, Tritium is the leader in DC Fast Charging solutions.

Together we've spent more than a century building the most innovative products in the fueling industry. Together, we're ready to take on the next century of fueling advancements.

Welcome to the future of Gilbarco Veeder-Root and Tritium. Welcome to the future of fueling.

CHARGE **AHEAD**

This is how charging was meant to be experienced. With 50kW of power, a small footprint and patented liquid-cooled technology, the Veefil RT is built to fuel the every day.

DISTINCTIVE **FEATURES**

Durable UV resistant exterior maximizes brand visibility

World's smallest footprint for a DC fast charger

Low maintenance ensures maximum up time

Optimal functionality in a wide range of environmental conditions

Patented Liquid-Cooled Technology reduces wear

Reduced set-up costs and faster installation time

POS & OCPP Integration facilitates easy connection to your existing store POS*

Advancements in design and engineering mean increased reliability

PREMIUM QUALITY

There is something common in Gilbarco Veeder-Root and Tritium's core: premium quality. Fueled by the pursuit of innovation, design, and engineering, this drive for excellence is at the heart of our brands. It is reflected in the Veefil-RT model with its patented liquid-cooling system, small footprint and attractive design. This reliable and robust electric vehicle fast charger is the leading choice of site hosts for easy installation and low maintenance.

The Veefil design increases site location options and reduces the cost to install.

INTUITIVE **SIMPLICITY**

The user interface speaks a language we can all understand. The intuitive layout and icons clearly walk the user through the charging process without using a word.

CONNECT, PAY, **START**

1. **Connect Plug to Car** - Icon flashes when the unit is available for use.
2. **Card Activation*** - Swipe your card over this area to activate the user interface, and to also unlock a charging session.
3. **MAX or HALF** - Toggle button to select a half or maximum charge amount. (if not pressed goes directly to maximum)
4. **START** - Push to start the charging session.
5. **STOP** - Push to stop the charging session.
6. **Return Plug to Charger** - Icon flashes to indicate that the charging session is complete and the plug should be returned to the plug holder.
7. **Not in Service** - Icon will light up when the charger is not in service.
8. **Locked symbol** - Lit when a charging session is in progress and the interface panel is locked.
9. **Charging indicator** - Will glow when a charging session is in progress.
10. **LED information displays** - Displays minutes, battery percentage during charge, kilowatts delivered, \$ fee charged based on setup.

EXPRESS **YOURSELF**

We understand your brand is important to you. The Veefit chargers provide advanced technology and performance wrapped up in a stunning body. Customize any charger with your logo and instantly equate your brand with the future of fueling.

INNOVATION **FUELED**

When it comes to industry-changing innovation, Gilbarco Veeder-Root and Tritium have always been ahead of the curve. The refined features you'll find in our charger models today are paving the way for the EV technology of the future.
